Corporate financial reporting has been evolving continuously, especially in recent years, and accountants too must upskill to deliver high quality services and disclosure that align with these emerging trends. One key development is the establishment of the International Sustainability Standards Board (ISSB) by the International Accounting Standards Board (IASB) which is paving the way for the adoption of Environment, Social and Corporate Governance (ESG) or sustainability values and climate change disclosure in reporting.

This value-packed conference will take you through a journey to better understand and harness these new developments to produce enhanced corporate financial reports for your organisations, that in turn could contribute to positive and sustainable outcomes for the global economy and society as a whole.

----------	----------------------------------

---

10.50 am	<b>PANEL DISCUSSION</b> <b>PREPARING IFRS-COMPLIANT CORPORATE FINANCIAL REPORTS: IMPACTS OF CLIMATE-RELATED DISCLOSURES ON FINANCIAL STATEMENTS</b> Climate change is a topic of recent interest because of its potential effect on companies' business models, cash flows, financial position, and financial performance. With the publication of the latest exposure draft on climate-related disclosures, climate change matters should be taken into consideration in applying IFRS Standards when the effect of those matters is material in the context of the financial statements taken as a whole. Join this session to find out the best angles for integrating climate matters in your reporting.

---

12.00 pm	<b>THE FUTURE OF FINANCIAL REPORTING: AUTOMATION BENEFITS AND BEST PRACTICES</b> Businesses are adopting the latest technologies to manage disruptive change, with top management prioritising intelligent automation tailor-made for their organisations. Automated financial processes facilitate quicker and better gathering and consolidation of information compared to manual processes, enabling decision-makers to focus on what really matters, especially in reporting. This session shares how businesses could leverage on automation to reap manifold value and benefits.

1.45 pm	<b>IMPLEMENTING MFRS 17 AND MFRS 9 AMENDMENTS</b> A few concerns have been raised by insurance entities specifically regarding the implementation of MFRS 17 (Insurance Contracts) and MFRS 9 (Financial Instruments). Many of them have applied for temporary exemption to defer the adoption of MFRS 9 until they apply MFRS 17. As these two Standards have different requirements with respect to comparative information presented in initial application, there are some concerns that this may result in misleading information. To address this issue, some amendments have been made by the IASB based on recommendations by their staff. Join this session to learn more about the amendments and their implications.
---------	--

---

2.30 pm	<b>PANEL DISCUSSION</b> <b>THE ESTABLISHMENT OF THE INTERNATIONAL SUSTAINABILITY STANDARDS BOARD (ISSB) AND THE NEW EXPOSURE DRAFTS</b> The IFRS Foundation has announced the creation of its new International Sustainability Standards Board (ISSB) that will develop a comprehensive global baseline of high-quality sustainability disclosure standards to meet investors' information needs. The ISSB has published the <i>Exposure Draft IFRS S1: General Requirements for Disclosure of Sustainability-related Financial Information</i> (General Requirements Exposure Draft) and <i>Exposure Draft IFRS S2: Climate-related Disclosures</i> (Climate Exposure Draft) for public feedback and comments, with the deadline for comment submissions set in July 2022. This panel session will discuss the ISSB's role and collaboration with the IASB in ensuring connectivity and compatibility between IFRS Accounting Standards and the ISSB's standards (IFRS Sustainability Disclosure Standards), while also sharing insights on the Exposure Drafts.
---------	--

---

3.45 pm	<b>PANEL DISCUSSION</b> <b>RAISON D'ÊTRE OF PROFESSIONAL ACCOUNTANTS: LEADING THE INCORPORATION OF ESG IN REPORTING AND BEYOND</b> Given their core competencies, professional accountants could contribute significantly to the incorporation of ESG in corporate financial reporting in their organisations. However, accountants can do much more as strategic leaders and business advisors. This session explores how professional accountants can go above and beyond to add value to their roles in their respective niches and jurisdictions.
