Preparing Your Firm for the New Standards on Quality Management: ISQM 1 and ISA 220 (Revised)

Source: freepik.com

29 November 2022 (Tuesday), 9.00 am – 5.00 pm

The International Auditing and Assurance Standards Board (IAASB) has issued three quality management standards, namely ISQM 1, ISQM 2 and ISA 220 (Revised), which will be effective from 15 December 2022. ISQM 1 replaces ISQC 1, while ISQM 2 is a new standard that deals specifically with engagement quality reviews. ISA 220 will be revised to strengthen and modernise an audit firm's approach to carrying out quality audits.

These quality management standards introduce a new approach that is focussed on proactively identifying and responding to risks to quality. ISQM 1 deals with firms' responsibilities for managing quality and applies to all firms that perform engagements under the IAASB's standards. This standard updates the ISQC 1 and shifts focus from a traditional, compliance based system to a more proactive and effective quality management. On the other hand, ISA 220 (Revised) sets out the specific responsibilities of the auditor regarding quality management at the engagement level and the related responsibilities of the engagement partner.

This programme seeks to help you to:
